

SURFIN DRY SPOT

ECOLOGIC SPOT REMOVER FOR NOT- OILY STAINS SUITABLE FOR COLD SPOTTING-MACHINES

SURFIN DRY SPOT is a compound of particular spotting substances, in watery solution.

Aspect	Clear liquid
Color	Colorless
Smell	Particular aromatic
pH at 20° C solut. 10 g/l	6-7
Density at 20° C	1,02 g/ml
Solubility in water	Solution clear at any rate
Freezing temperature	-1° C

SURFIN DRY SPOT facilitates the elimination of various water-soluble stains and sweat rings. SURFIN DRY SPOT dries quickly and does not leave streaks.

SURFIN DRY SPOT can be used with cold spotting-machines, or ultrasonic spotting-machines, or manually. SURFIN DRY SPOT is applicable for all types of fiber, however it is advisable to perform a preliminary test for the colors of a weak internal stitch of the garment to be treated.

Cold spotting-machines: fill with SURFIN DRY SPOT the proper tank, with the spray gun spray the product on the stain; dry well with compressed air from the outside towards the inside of the spot.

Ultrasonic spotting-machine: fill the special tank with SURFIN DRY SPOT; moisten the stain activating ultrasound and opening the outlet valve of the product, close the outlet valve continuing to act with ultrasound; dry well with compressed air from the outside towards the inside of the spot.

Manual stain removal : moisten with SURFIN DRY SPOT to remove the stain; act slightly with a scraper on the stain and rinse with steam gun; everything dry using compressed air from the outside to the inside of the stain.

SURFIN DRY SPOT can be stored for 2 years.
The container should always be tightly closed after drawing.

Plastic containers of 10 - 25 Kg.

714710 = 10 Kg 714725 = 25 Kg
